5S LEAN AND KANBAN SOLUTIONS

SORT • SET IN ORDER • SHINE • STANDARDIZE • SUSTAIN

Boost Efficiency & Organization with 5S Lean Solutions

Transform your workspace with Promplii's industry-leading material handling products—designed to support the proven 5S Lean methodology. Whether you're streamlining operations, reducing waste, or improving safety, our solutions help you:

- Optimize inventory levels and reduce carrying costs.
- Maximize usable workspace.
- Enhance safety and minimize downtime.
- Improve visual control and accountability.
- Empower teams and elevate morale.
- Accelerate problem detection and resolution.

SORT: Eliminate Clutter, Elevate Clarity

Start your 5S journey by removing unnecessary tools and materials. Promplii offers smart bin solutions to simplify sorting and categorization:

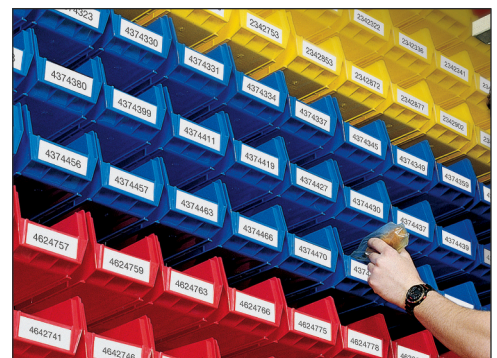

- Storage bins with large hopper fronts for quick access and efficient picking.
- Available in multiple sizes and colours for visual organization.
- Clear bins for instant identification of contents.
- Ideal for both compact and large-scale workspaces.

SET IN ORDER: Organize for Speed and Simplicity

Arrange tools and materials so everything is easy to find and within reach. Our modular systems make it simple to create intuitive, efficient layouts:

- Labelled bins and shelf spaces ensure items are always returned correctly.
- Louvered panels for vertical storage and space optimization.
- Wire and steel shelving systems for custom configurations.
- Mobile carts and racks for flexible, on-the-go organization.
- Hanging and stacking bins to group related items together.

5S LEAN AND KANBAN SOLUTIONS

SORT • SET IN ORDER • SHINE • STANDARDIZE • SUSTAIN

SHINE: Clean, Protect, and Maintain

Keep your workspace clean and your equipment protected. Promplii products help you implement a proactive cleaning and maintenance routine:

- Lidded containers to shield contents from dust and debris.
- Grid containers with dividers and optional lids for compartmentalized storage.
- Drawer bins with enclosed shelving for secure, dust-free organization.
- Nestable containers with attached or detached lids for easy cleaning and compact storage.

STANDARDIZE: Create Consistency, Drive Performance

Establish repeatable processes and visual standards to eliminate waste and boost productivity:

- Kanban systems to maintain optimal inventory levels.
- Two-tone indicator bins for instant supply status recognition.
- Super-sized stackable bins for secure, space-saving storage.
- Portable workstations to integrate 5S into daily routines.
- Colour-coded bins, carts, and hoppers for universal process alignment.

SUSTAIN: Build a Culture of Continuous Improvement

Empower your team to maintain and improve the workspace with durable, high-performance solutions:

- Reinforce best practices with consistent evaluation and feedback.
- Plastic and steel material handling products built for long-term efficiency.
- Support lean workflows with reliable storage, transport, and organization systems.

HANGING AND STACKING BINS

EFFICIENTLY HANG, STACK, AND ORGANIZE

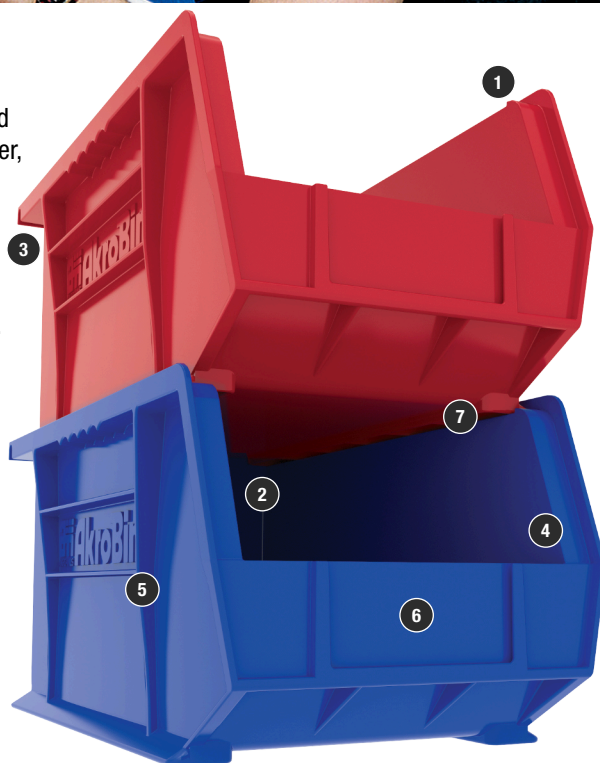

Hanging and Stacking Bins – Sturdy, and Space-Saving!

Maximize your storage efficiency with our heavy-duty Hanging & Stacking Bins! Designed for ultimate functionality, these bins keep inventories organized, speed up assembly processes, and minimize parts handling—helping you work smarter, not harder.

FEATURES:

- 1 **Stable & Secure:** Anti-slide stop prevents shifting when stacked.
- 2 **Customizable Storage:** Optional dividers create adaptable compartments.
- 3 **Versatile Hanging:** Full-width hanger lip ensures firm support on racks, panels, rails, and carts.
- 4 **Easy Access:** Convenient open hopper front lets you grab small parts effortlessly.
- 5 **Built Tough:** Reinforced side ribs prevent spreading and add durability.
- 6 **Label & Scan Ready:** Large front label area for easy identification and tracking.
- 7 **Space-Saving Design:** Extra-wide stacking ledge keeps bins stable, prevents spills, and optimizes storage capacity.

PRODUCT HIGHLIGHTS:

- **Efficient:** Control inventories, shorten assembly times, and minimize parts handling.
- **Functional:** Heavy-duty bins securely stack atop each other, sit on shelving, and hang from racks, panels, rails, and carts.
- **Durable:** Molded of industrial-grade polymers that are resistant to weak acids and alkalis. Water, rust and corrosion-proof.
- **Variety:** Available in many sizes and 7 Standard Colours: Red, Blue, Yellow, Stone, Green, Black and Clear! Other colours available in minimum quantities.

AWRAIL
(See page 54)

CUSTOM STORAGE SOLUTIONS

Pair Hanging and Stacking Bins with Steel Cabinets, Louver Panels, Rail Systems and Shelving.

The 30237 fits on 18" deep shelving for a two-bin Kanban system or rotate and pick from both sides.

30240 and 30250 bins paired with 30161 louvered panels.

ESD Bins – Safeguard Your Sensitive Components

Engineered to protect your most delicate electronics, ESD Bins are built with electrostatic dissipative materials that minimize the risk of static-related damage. Ideal for cleanrooms, electronics assembly areas, and precision tech storage, these bins offer reliable protection, efficient organization, and low-residue handling.

FEATURES:

- 1 Electrostatic Protection:** Safely dissipates electrostatic charges to prevent damage to sensitive components.
- 2 Controlled Resistance:** Operates within a static dissipation range of 10^4 to 10^{11} ohms/sq., meeting strict industry standards.
- 3 Low Carbon Composition:** Contains only 1–2% carbon, preventing residue transfer to parts or sensitive surfaces.

PRODUCT HIGHLIGHTS:

- Protection:** Prevent costly failures by shielding electronics from harmful electrostatic discharge.
- Performance:** Built for clean, safe, and efficient storage in ESD-sensitive environments.
- Clean Handling:** Carbon content low enough to avoid contamination or buildup on stored items.

INSIGHT BINS

ORGANIZE, PROTECT, MAXIMUM VISIBILITY

Standard Colours

CL

Insight Bins – Secure, Smart & Built for Maximum Visibility!

Organize with confidence using our high-performance Insight Bins! Engineered for stability and efficiency, these bins provide a secure stacking system while ensuring quick access to parts and supplies.

FEATURES:

- 1 Lock-in-Place Stacking:** Unique design keeps bins firmly in place.
- 2 Strong Hanging Support:** Molded hanger ensures stability on hanging systems.
- 3 Label & Scan Ready:** Large front label area for easy identification and barcode scanning.
- 4 Dust-Free Storage:** Optional lids (sold separately) protect contents while allowing bins to stack seamlessly. Optional dividers sold separately.

PRODUCT HIGHLIGHTS:

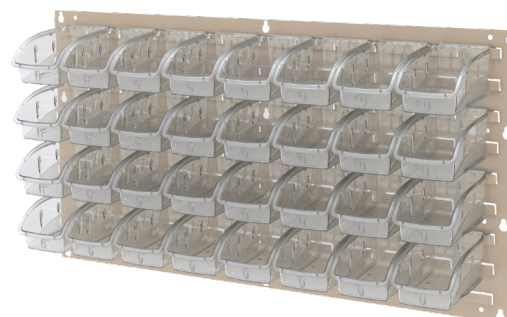

- Visibility:** Easily locate and access parts for a more efficient workflow.
- Versatile:** Securely stacks, hangs from louvered panels, rails, and racks.
- No-Tip Design:** Stacked bins remain stable, preventing accidental tipping.
- Durable:** High-impact polycarbonate withstands temperatures up to 250° F and resists wear.
- Variety:** Available in multiple sizes to suit any storage setup.

4" SHELF BINS

STREAMLINE STORAGE, MAXIMIZE SPACE AND ORGANIZE

4" Shelf Bins – Smart, Space-Saving & Built to Perform!

Boost efficiency with our durable 4" Shelf Bins! Designed for optimal organization and accessibility, these bins maximize storage while ensuring seamless workflow.

FEATURES:

- 1 **Convenient Hopper Front:** Wide opening allows effortless retrieval of small parts.
- 2 **Smart Tilt-Out Design:** Built-in rear hanglock lets bins tilt for complete access.
- 3 **Label-Ready:** Molded-in label area ensures quick identification of contents.
- 4 **Customizable Storage:** Accepts up to 7 dividers (except model 30110) for flexible organization.
- 5 **Cold-Resistant:** Performs in temperatures as low as -20°F, ideal for various environments.

PRODUCT HIGHLIGHTS:

- **Efficient:** Fits 12", 18", and 24" deep shelving, pick racks, and retrieval units.
- **Durable:** Industrial-grade polymer outperforms corrugated bins—waterproof, grease-resistant, and won't crack under heavy loads.
- **Nestable:** Bins nest when empty, optimizing storage space.
- **Variety:** Available in multiple sizes and colours. Other colours available in minimum quantities.

6" SHELF BINS

STREAMLINE STORAGE, MAXIMIZE SPACE AND ORGANIZE

6" Shelf Bins – High Capacity, High Performance!

Reimagine your shelving efficiency with our ultra-capable 6" Shelf Bins! Built for strength, accessibility, and smart organization, these bins offer 85% more storage capacity than standard 4" bins, without compromising on durability or space-saving design.

FEATURES:

- Enhanced Access:** Front opening is $\frac{3}{4}$ " taller than comparable bins for easier reach.
- Reinforced Design:** Side ribs and rolled ridge add structural integrity when fully loaded.
- Label-Friendly:** Large front label area for streamlined identification and scanning.
- Complete Accessibility:** Rear hanglock allows the bin to tilt out for full access.
- Flexible Storage:** Optional dividers and cups available for custom compartment configurations.

PRODUCT HIGHLIGHTS:

- Superior Capacity:** Delivers 85% more space than traditional 4" bin options.
- Compatibility:** Compatible with steel and wire shelving, pick racks, and bench racks.
- Durable:** Outperforms corrugated bins with rugged, one-piece construction.
- Variety:** Available in a range of sizes and colours. Custom colours available with minimum quantities.

INDICATOR BINS

TWO-TONE INVENTORY CONTROL BIN

Standard Colours

BR BO

Indicator Bins – Smarter Inventory at a Glance!

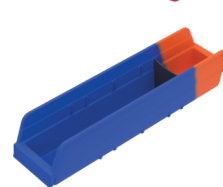

Streamline your stock management with Indicator Bins—designed to keep you ahead of supply shortages. With dual-colour visibility and a unique double-hopper design, these bins offer a simple, cost-effective solution for tracking inventory in real time.

FEATURES:

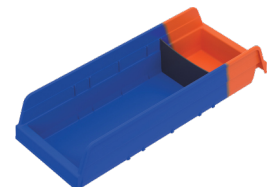

- 1 Visual Alerts:** Bright orange/red trigger colour signals low inventory at a glance.
- 2 Dual Access:** Fill and pick from either side with the clever double-hopper format.
- 3 Easy Identification:** Large label areas on both sides support part tracking and bar coding.
- 4 Reinforced Strength:** Rolled ridge provides durability even under load.
- 5 Flexible Configuration:** Optional width dividers separate active and reserve stock for precision control.

PRODUCT HIGHLIGHTS:

- Inventory Control:** Prevents stock outages before they happen.
- Easy to Use:**
 - Stock:** Use a divider to set aside reserve inventory.
 - Pick:** Draw from the blue/black side until you reach the divider.
 - Flip:** Turn the bin to expose the orange/red side, your cue to restock.
 - Replenish:** Refill and reset for another smooth inventory cycle.
- Value:** A smart, low-cost alternative to expensive inventory software systems.

High Visibility Stack and Shelf Bins – Visibility Meets Efficiency

When visibility and accessibility matter most, our Stack and Shelf Bins deliver. Designed for shelving and racking systems, these bins bring streamlined organization to every storage environment.

PRODUCT HIGHLIGHTS:

- **Visibility:** Large hoppers front provides excellent visibility and easy reach.
- **Compatibility:** Compatible with standard steel and wire shelving and racks.
- **Durable:** Resistant to weak acids, alkalis, water, rust, and corrosion.
- **Label & Organize:** Large label area ensures quick part identification and smooth inventory tracking.
- **Stackable:** AW30600 and AW30605 are stackable for space-saving setups. AW30550 is ideal for long items; optional rear-hole version available for bin chaining (minimum orders apply).

1800 Series Bins – Built Tough for Oversized Organization

When you're storing heavy-duty, bulky items, the 1800 Series Bins provide unmatched strength, stability, and custom configuration options.

FEATURES:

- 1 **Heavy-Duty Construction:** Molded from industrial-grade polymers for exceptional impact resistance and long-term durability.
- 2 **Stacking Strength:** Reinforcing ribs and wide walls prevent deformation—even when bins are stacked and fully loaded.
- 3 **Customizable Storage:** Each bin includes one black width divider, making it easy to separate parts or materials for better organization.

PRODUCT HIGHLIGHTS:

- **Durable:** Built to endure harsh environments and demanding loads.
- **Stackable:** Maximize space with bins designed to stack securely.
- **Dividable:** Easily create segmented compartments with divider.

STACKING BINS

STRONG, SPACIOUS & BUILT TO LAST

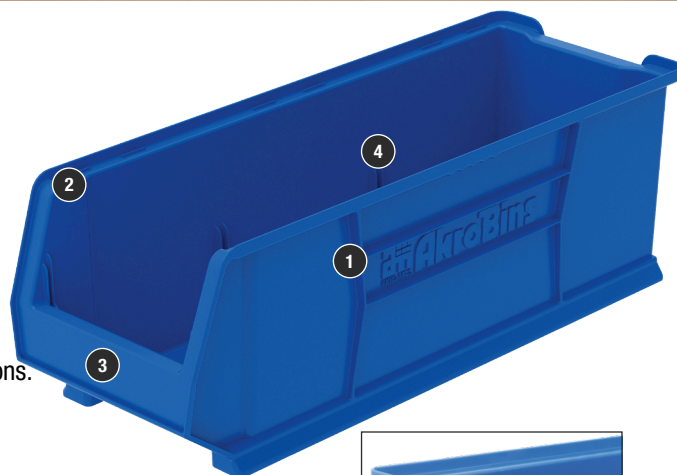

Stacking Bins – Strong, Spacious & Built to Last!

Take control of your storage with our heavy-duty Stacking Bins! Designed for maximum capacity and efficiency, these bins keep your workspace organized while ensuring easy access to parts and supplies.

FEATURES:

- 1 **Reinforced Strength:** Side ribs prevent spreading and add durability.
- 2 **Stay Put:** Anti-slide stop keeps stacked bins securely in place.
- 3 **Label & Organize:** Large front label area for easy coding and scanning.
- 4 **Customizable Compartments:** Divider slots allow flexible storage solutions.
- 5 **Easy to Carry:** Large molded handle on the back for effortless transport.

PRODUCT HIGHLIGHTS:

- **Capacity:** Large-capacity storage to improve organization and workflow.
- **Stackable:** Heavy-duty bins securely stack on top of each other, sit on shelving, carts, or dollies.
- **Durable:** Molded of industrial-grade polymers and are resistant to weak acids and alkalis. Water, rust, and corrosion-proof.
- **Variety:** Available in multiple sizes and colours to match your needs.

RACKABLE BINS

DURABLE, SPRINKLER-SAFE COMPLIANT

Standard Colours

Rackable Bins – Durable, Organized, Fire-Safe

Maximize storage and workflow with robust bins designed for pallet racking, SKU control, and sprinkler-safe compliance.

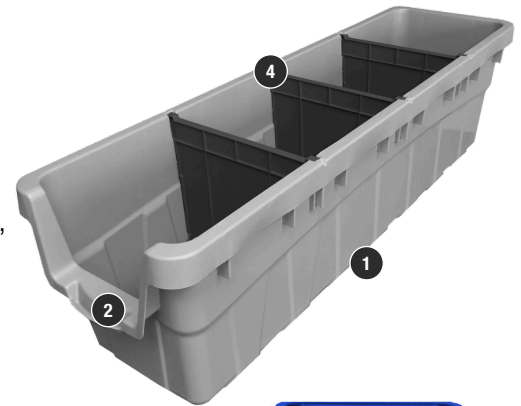

FEATURES:

- 1 **Rack-Optimized:** Designed to fit perfectly in 42" deep racks.
- 2 **Safe & Ergonomic:** Heavy-duty grips on front, back, and sides for secure handling
- 3 **Stable:** Designed for stable stacking, wide stacking ledge prevent forward shifting
- 4 **Flexible Organization:** Warehouse Bin has optional lockable dividers support up to 8 SKUs per bin.
- 5 **Drainage & Airflow Options:**
 - **AK42121203:** Perforated bottom allows water drainage during sprinkler activation.
 - **QRB Rack Bin:** Eight 1/4" drill holes on base enable customized airflow or drainage.

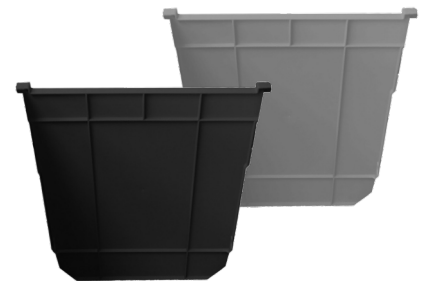

PRODUCT HIGHLIGHTS:

- **Maximized Space:** Full length bins eliminate wasted space in deep racks.
- **Organizational:** Large labeling area for barcode and SKUs.
- **Secure Stacking:** QRB Rack Bin: Anti-slide lock and multi-point grips for safety in motion.
- **Environmental Readiness:** Drainage-ready designs support operational and fire compliance.

Resistance: Waterproof and corrosion-free for harsh environments, built for long-term reusability and safety.

STACK AND NEST CONTAINERS

SMART, STRONG, SPACE-SAVING STORAGE

Stack and Nest Containers – Durable, Versatile & Built for Efficient Storage!

Optimize your storage and transport with our high-performance Stack and Nest Containers! Engineered for strength, convenience, and security, these containers are perfect for shipping, transfer, and storage applications.

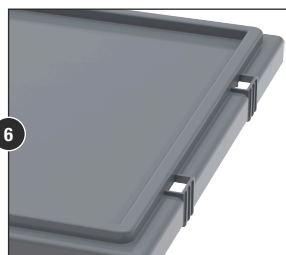

FEATURES:

- 1 **Easy-to-Clean:** Smooth surfaces allow for effortless maintenance.
- 2 **Comfortable Grip:** Ergonomic design makes lifting and handling easy.
- 3 **Jam-Free Nesting:** Ribs under the lip prevent sticking when nested.
- 4 **Slip-Resistant Base:** Textured bottom ensures stability on conveyor belts.
- 5 **Secure Stacking:** Wide stacking ledge keeps totes stable—even without lids.
- 6 **Extra Protection:** Optional lids feature tie holes for enhanced security.

PRODUCT HIGHLIGHTS:

- **Functional:** Ideal for shipping, transfer, and storage applications.
- **Stackable & Nestable:** Stack securely when full, nest when empty to save space.
- **Durable:** Industrial-grade polymer resists rust, corrosion, and warping under heavy loads.
- **Cost-Effective:** Long service life means fewer replacements and lower costs.
- **FDA-Compliant:** Manufactured from materials safe for regulated environments.
- **Variety:** Available in multiple sizes and colours. Other colours available in minimum quantities.

STACK AND NEST CONTAINERS

SMART, STRONG, SPACE-SAVING STORAGE

Stack and Nest Containers – Efficiency, Durability & Secure Stacking!

Keep your storage and transport streamlined with our high-performance containers! Engineered for maximum functionality, these totes provide secure stacking, easy handling, and reliable protection for your materials.

FEATURES:

- 1 **Easy-to-Clean:** Smooth finish ensures effortless maintenance.
- 2 **Ergonomic Grip:** Comfortable design makes lifting and carrying a breeze.
- 3 **Jam-Free Nesting:** Ribs under the lip prevent sticking when nested.
- 4 **Slip-Resistant Base:** Textured bottoms provide stable grip on conveyor belts.
- 5 **Stackable Without Lids:** Wide stacking ledge ensures stability for storage and shipping.
- 6 **Added Security:** Lids feature tie holes for extra protection when needed.

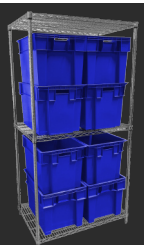

PRODUCT HIGHLIGHTS:

- **Space-Saving:** Securely stacks when full, nests when empty to optimize storage.
- **Durability:** Industrial-grade polymer resists wear, reducing replacement costs.
- **FDA-Compliant:** Safe for regulated environments and food applications.
- **Standardized:** SN2416 series totes are cross-compatible for seamless system integration.
- **Optimized for Pallets:** Fits five per layer on a standard 48" x 40" pallet, maximizing shipping efficiency.
- **Options:** Vented sides and bottom options for added airflow, cooling, or drainage.

WIRE SHELVING KITS

Chrome vs Epoxy

Shelf kits are available in both chrome or epoxy finish. Chrome plated finish is very durable and is ideal for dry storage environments. Epoxy is the ideal solution for high humidity, wet, or walk-in-cooler applications. more economical, small footprint, easy to remove bins from rails. Specify finish when ordering.

See wire shelving for more information.

STACK AND NEST CONTAINERS

SMART, STRONG, SPACE-SAVING STORAGE

Standard Colours

Stack and Nest Containers – Smart, Durable & Space-Saving!

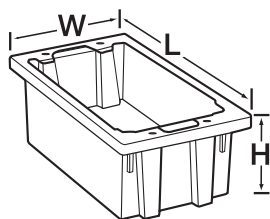

Enhance efficiency and streamline your storage with our high-performance Stack and Nest Containers! Designed for ultimate versatility, these containers make handling, organizing, and transporting goods effortless across industries.

FEATURES:

- 1 Space-Saving Design:** Stack when full, nest when empty to maximize storage capacity.
- 2 Built to Last:** Engineered for durability in tough environments and heavy use.
- 3 Ergonomic Handling:** Reinforced edges and easy-grip design ensure effortless transport.
- 4 Versatile & Adaptable:** Ideal for manufacturing, retail, logistics, and more.
- 5 Optimized Sorting & Transport:** Available in multiple sizes for efficient organization.

PRODUCT HIGHLIGHTS:

- Seamless Transition:** Stack securely for storage and shipping; nest compactly when empty.
- Long-Lasting Durability:** Industrial-grade polymer construction resists wear and tear.
- Effortless Organization:** Designed to simplify logistics and boost workplace efficiency.

CROSS STACK AND NEST CONTAINERS

TOUGH, TIDY, BUILT TO LAST

Standard Colours

Jumbo Lug Containers – Rugged, Reliable, Ready for Anything!

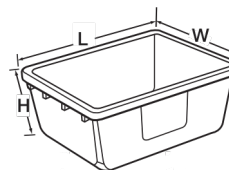

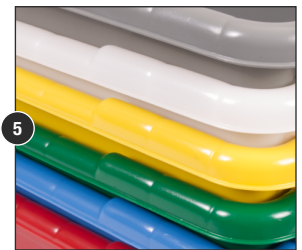

Designed for the demands of shipping, storage, and distribution, our Jumbo Lug Containers are built to take on heavy-duty tasks with ease. With tough construction, nest-and-stack versatility, and FDA-compliant materials, these containers make handling more efficient in every environment.

FEATURES:

- 1 Stackable:** Integrated grooves create secure 90° stacks with or without lids.
- 2 Nestable:** Maximize space with compact nesting capability.
- 3 Extra Strength:** Reinforced walls and ribs deliver exceptional load-bearing durability.
- 4 Molded-In Handles:** Comfortable grip for smooth and easy lifting.
- 5 Colour-Code Compatible:** Choose from multiple colours to quickly identify contents.

PRODUCT HIGHLIGHTS:

- Durable:** Made from industrial-grade polymer that resists rust, corrosion, and splintering.
- FDA-Compliant:** Safe for food handling and regulated environments.
- Smooth & Sanitary:** Easy-to-clean surfaces support hygiene standards.
- System Compatible:** Sized to fit standard 36" shelving and conveyor systems.
- Value:** Designed for long service life, reducing replacement costs.

MULTI-PURPOSE TRAYS

VERSATILE, MAXIMIZE AIRFLOW, OPTIMIZED FOR TRANSPORT

Standard Colours

Multi-Purpose Trays – Versatile, Space-Saving

Streamline storage, transport, and product access with Multi-Purpose Trays, designed to provide durable performance in demanding environments. Their intuitive design maximizes airflow, stacking efficiency, and mobility.

FEATURES:

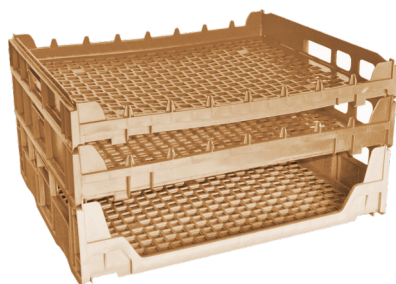

- 1 **Secure Stackability:** Tongue-and-groove design keeps trays firmly in place during transport.
- 2 **Effortless Access:** Low-profile sidewalls make contents easy to reach.
- 3 **Optimized Ventilation:** Open-grid base and sides promote airflow.
- 4 **Space Efficiency:** Trays stack and nest within their own footprints to minimize storage waste and back haul volume.
- 5 **Durable:** Corrosion-resistant, splinter-free, and 100% recyclable.

PRODUCT HIGHLIGHTS:

- **Mobility Ready:** Pair with dollies for hassle-free transport.
- **Efficiency:** Allows full cube loading, reducing shipping costs.
- **Versatile:** Designed for distribution, agriculture, storage, and more.
- **Sustainable:** Eco-conscious without sacrificing durability.
- **Durable:** Withstands rugged use and extreme temperatures.

Clear Attached Lid Containers – Transparent and Secure

Simplify your storage with Clear Attached Lid Containers, designed for easy access, reliable protection, and enhanced visibility. Perfect for light to medium-duty use, these containers let you monitor contents at a glance while keeping everything securely contained.

FEATURES:

- 1 Clear Visibility:** Transparent sides offer quick identification of contents without opening the lid.
- 2 Integrated Lid:** Attached lids ensure nothing gets misplaced.
- 3 Enhanced Security:** Padlock eye on both ends accepts security ties for added peace of mind.
- 4 Durable Hinges:** Reinforced hinge pins ensure smooth, long-lasting lid operation.
- 5 Specialty Storage:** Hanging File KeepBox includes metal rails for easy organization of letter-size folders.

PRODUCT HIGHLIGHTS:

- Functional:** Provides clean, dust-free storage and reliable protection during transport.
- Nestable:** Efficiently nests when empty to save space in storage areas.

STRAIGHT WALL CONTAINERS

INDUSTRIAL REUSABLE CONTAINERS

Straight Wall Containers – Stack-Only, Supply Chain Ready

Built for closed-loop shipping and in-process handling, Straight Wall Containers offer streamlined durability, protective stacking, and pallet-ready compatibility.

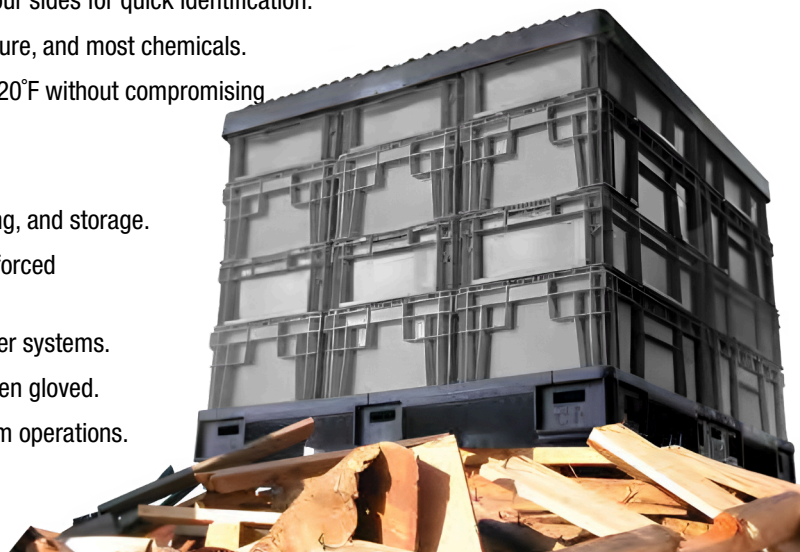

FEATURES:

- 1 **Bottom Style:** Smooth or reinforced cross-cube bottom designs available.
- 2 **Pallet Fit:** Containers cube precisely to industry standard pallets.
- 3 **Reinforced Structure:** Reinforced sides and bottoms enhance protection during handling.
- 4 **Interstacking:** Interworking sizes allow mixed stacking on a single pallet.
- 5 **Compatibility:** Compatible with other brands to expand your existing container system.
- 6 **Ergonomic Handles:** Designed to distribute load evenly across four fingers.
- 7 **Label Areas:** Textured label areas available on up to four sides for quick identification.
- 8 **Material:** Injection-molded HDPE resists impact, moisture, and most chemicals.
- 9 **Temperature Range:** Use in conditions from -20° to 120°F without compromising integrity.

PRODUCT HIGHLIGHTS:

- **Functional:** Optimized for stacked efficiency in shipping, and storage.
- **Durable:** Built tough for industrial workflows with reinforced sidewalls.
- **Compatible:** Mix and integrate with pallet and container systems.
- **Ergonomic:** Easy to lift, label, and maintain—even when gloved.
- **Sustainable:** Recyclable and reusable across long-term operations.

STRAIGHT WALL CONTAINERS

INDUSTRIAL REUSABLE CONTAINERS

Standard Colours

GY

Straight Wall Containers – Durable, Built for the Supply Chain

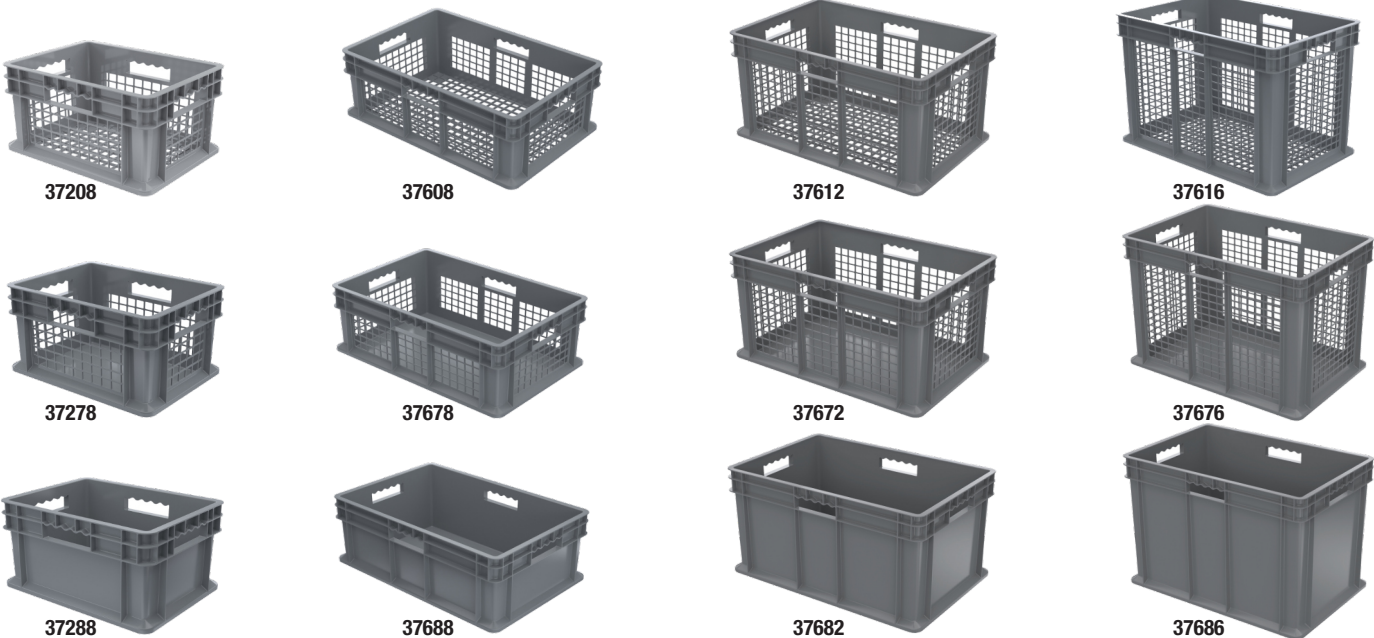

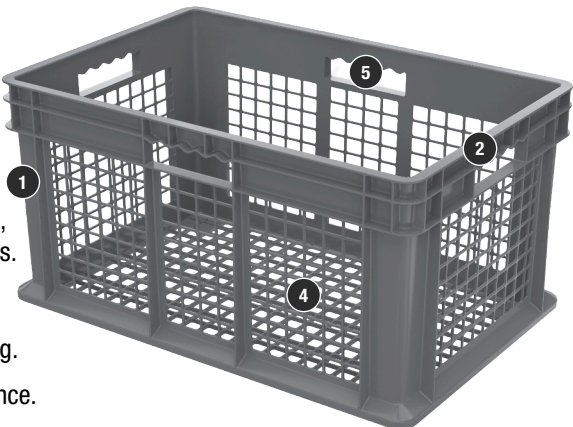

Purpose-built for material handling, these reusable containers offer secure stacking, ventilation, and ergonomic access for transport, storage, and in-process applications.

FEATURES:

- 1 **Wall Thickness:** 1" thick walls deliver sturdy load support and reliable stacking.
- 2 **Strength:** Reinforced 1" stacking rims and external ribbing add impact resistance.
- 3 **Efficient Cubing:** Straight wall design maximizes space on pallets and in trailers.
- 4 **Mesh Pattern:** Open .72" x .90" mesh enhances airflow and visibility.
- 5 **Ergonomic Access:** Large handles on all four sides ensure a safe and comfortable grip.

PRODUCT HIGHLIGHTS:

- **Functional:** Ideal for reuse in shipping, storage, and manufacturing workflows.
- **Solid:** Smooth interior walls allow easy cleaning and meet sanitary standards.
- **Mesh:** Ventilated structure promotes air circulation and proper drainage.
- **Durable:** Made from injection-molded polymers for lasting performance.
- **Variety:** Available in multiple configurations to suit various applications.

GRID CONTAINERS

CUSTOMIZABLE DIVIDABLE CONTAINERS

Standard Colours

Grid Containers – Flexible Storage That Works Your Way

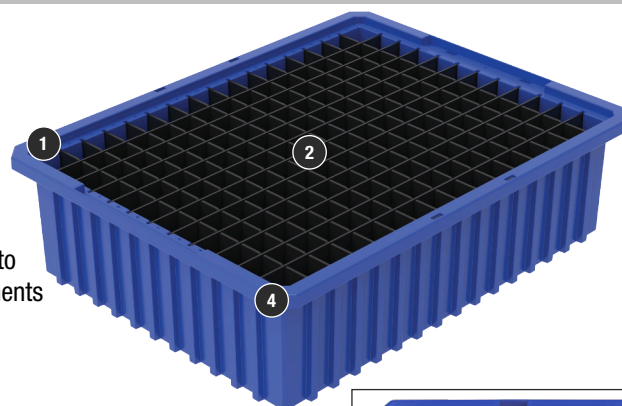

Get total control over your parts organization with our highly adaptable Grid Containers. Designed for precision and durability, these containers allow you to customize compartment layouts, making them ideal for sorting small components in any workspace.

FEATURES:

- 1 Modular Layouts:** Built-in divider slots let you create unique compartment configurations.
- 2 Precision Sorting:** Optional dividers (sold separately) subdivide into 1-1/8" square compartments for detailed organization.
- 3 Easy Tracking:** Molded-in letter/number system simplifies parts identification.
- 4 Built to Stack:** Reinforced stacking rims and external ribbing add strength and stability.

PRODUCT HIGHLIGHTS:

- Versatile:** Compatible with most racks, shelving, and automated storage and retrieval systems.
- Strength:** Injection-molded from industrial-grade polymers, resistant to most chemicals and solvents.
- Durability:** Long service life lowers replacement frequency and overall costs.
- Variety:** Available in a wide range of sizes.

PLASTIC PALLETS

HEAVY-DUTY, REUSABLE, SUSTAINABLE

Standard Colours

BK

Plastic Pallets - Reusable, Recyclable, Durable

Our range of plastic pallets offer durable, sustainable, and cost-effective solutions for material handling, storage, and transport. Whether you need nestable pallets for space-saving, racking models for high-bay storage, or hybrid designs that combine both, each pallet is built for performance and longevity.

FEATURES:

Nestable Export Plastic Pallet – PP107 Series:

- 1 **Design:** Space-saving nesting ratio up to 4:1.
- 2 **Durability:** Resistant to rot, mildew, and splintering.
- 3 **Handling:** Extremely lightweight for easy and safe handling.
- 4 **Efficiency:** Cost-effective return freight and storage.

Nest-Rack Pallet – NRUS5 Series:

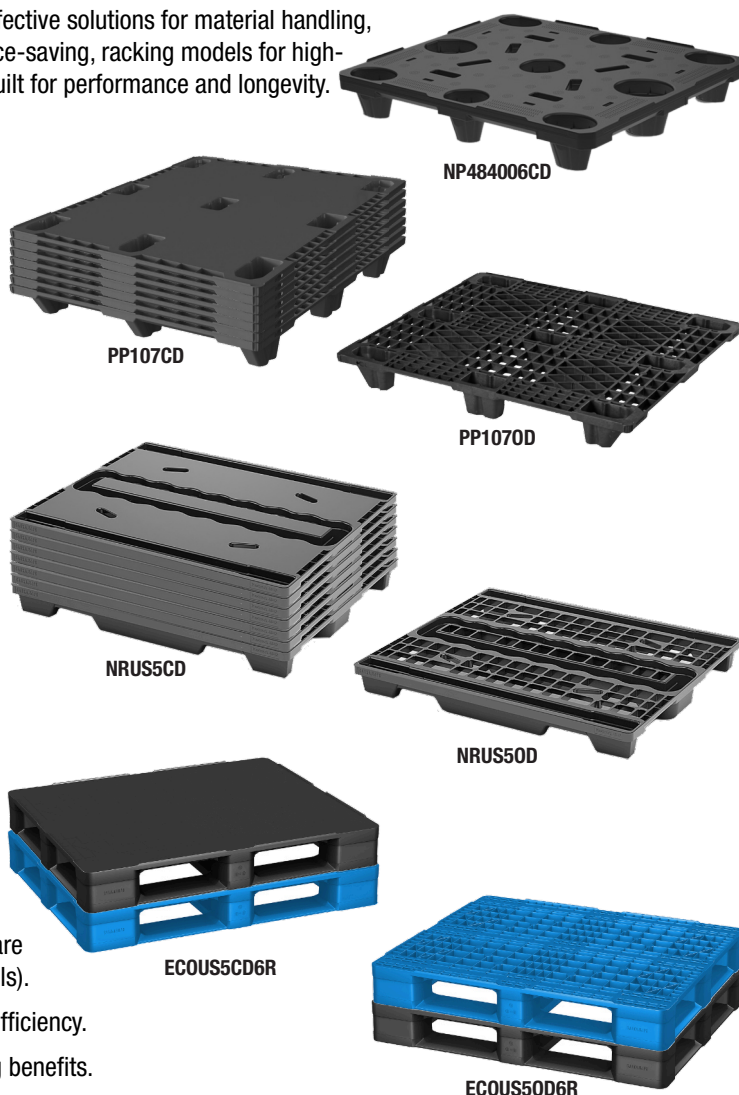

- 1 **Design:** Runners ensure smooth movement on conveyors.
- 2 **Durability:** Outstanding weight-to-load ratio.
- 3 **Handling:** Nestable for space-saving storage.
- 4 **Efficiency:** 4-way forklift access for operational flexibility.

Rackable, Stackable Pallet – ECOUS5 Series:

- 1 **Design:** Optimized for high rack compatibility.
- 2 **Durability:** Long service life due to reinforced structure.
- 3 **Handling:** Industry standard design for broad application.
- 4 **Efficiency:** Reusable across multiple logistics cycles, stable stacking for efficient storage and transport.

PRODUCT HIGHLIGHTS:

- **Sustainable:** All pallets are made from recycled plastic and are 100% recyclable (virgin blue options available in select models).
- **Robust:** Designed for durability, reusability, and operational efficiency.
- **Space Saving:** Nestable options offer excellent space-saving benefits.
- **Rackable Options:** Racking models provide secure high-rack storage and conveyor compatibility.
- **Variety:** Open deck and closed deck surfaces available in each model.

Other sizes, styles and customizations available with minimum order.

Capacity is dependent upon application and use environment. It is based on equally distributed loads. Elevated temperatures or concentrated loads may affect capacity. *Rackable only when using runners.

BULK CONTAINERS

STRONG, SECURE, BULK SHIPPING MADE EASY

Bulk Containers – Durable, Versatile & Built for Demanding Loads

Our bulk containers are engineered to handle a wide range of industrial applications—from general storage and distribution to heavy-duty material handling. Made from 100% recyclable HDPE, these containers offer long service life, impact resistance, and compatibility with automation systems. With options for reinforced bases, collapsible walls, and extended lengths, there's a model to suit every need.

PRODUCT HIGHLIGHTS:

BG Series – Industry Standard Bulk Containers

- **Capacity:** Rated up to 1,200 lbs.
- **Security:** Locking latches secure panels and doors.
- **Compatibility:** Available with 9 feet or 5 plastic runners.
- **Efficiency:** Has a collapsible return ratio of 3.6:1.

BC Series – Heavy-Duty Bulk Containers

- **Capacity:** Rated up to 1,800 lbs.
- **Compatibility:** Available in 32x30, 48x40, and 48x45 footprints.
- **Strength:** Injection molded, two-piece compression heat-welded base for added durability.
- **Longevity:** Plastic latches and hinges are 100% field repairable.

BN Series – Extra Heavy-Duty Bulk Containers

- **Capacity:** Rated up to 1,800 lbs (32x30) and 2,500 lbs (48x45).
- **Strength:** Superior durability for reliable performance.
- **Compatibility:** Available in 32x30, and 48x45 footprints.
- **Compatibility:** Drop-doors and four-way forklift entry.

BH Series – Heavy-Duty Reinforced Bulk Containers

- **Capacity:** Rated up to 2,500 lbs.
- **Reinforcement:** Includes 3 steel runners for added durability.
- **Strength:** Post-and-pocket side panels interlock securely.
- **Protection:** Steel corner hit plates deflect fork tines.

BS Series – Extended Length Bulk Containers

- **Capacity:** Rated up to 2,000 lbs.
- **Compatibility:** Available with no drop doors, 2 doors, or 4 doors.
- **Access:** Spring latches allow quick assembly and knockdown.
- **Efficiency:** Non-sequential folding prevents wall bowing during collapse.

BF Series – Fixed Wall Bulk Containers

- **Strength:** Solid, one-piece base for maximum durability.
- **Compatibility:** Designed for automation systems.
- **Resistance:** Withstands sunlight, cooling, impact, and moisture.
- **Longevity:** Will not rust, splinter, rot, or absorb odors.

CENTERFLOW CONTAINERS

FAST DISPENSING, DURABLE CONSTRUCTION

Standard Colours

BK

CenterFlow Containers – Fast Dispensing with Industrial Grade

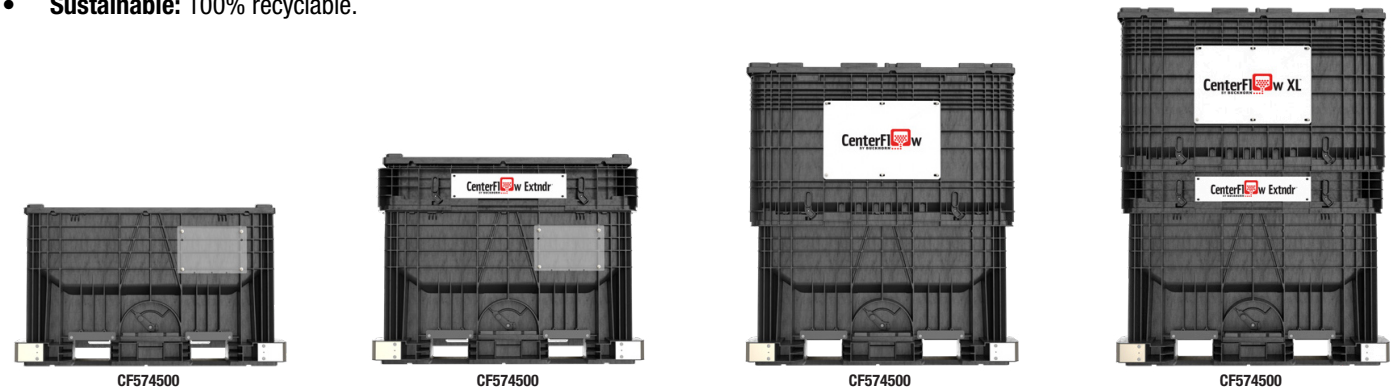

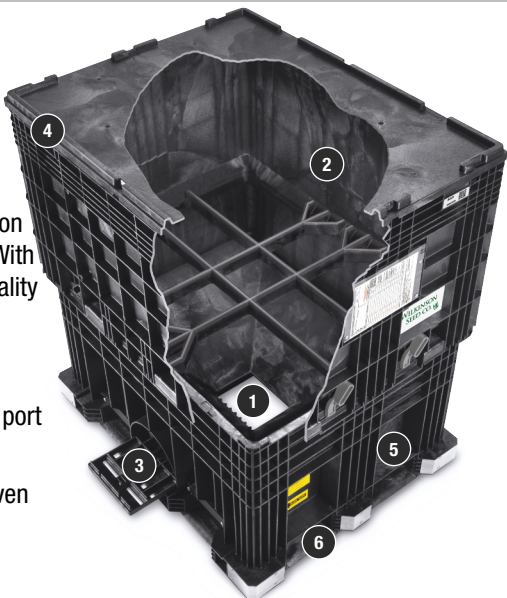

Engineered for speed, durability, and precision, CenterFlow Containers are the go-to solution for transporting and dispensing seed, pellets, granular materials, and small components. With smooth flow and ergonomic handling, these versatile containers combine rugged build quality with operational efficiency.

FEATURES:

- 1 Efficient Flow Design:** Funnel-shaped interior with a 35° angle and generous export port allows complete emptying in as little as 30 seconds.
- 2 Heavy-Duty Capacity:** Carries loads up to 2,500 lbs. with reinforced crossbars for even weight distribution.
- 3 Safe Side Access:** Integrated access door enables easy, one-person operation to dispense partial or full contents.
- 4 Contamination Control:** Tight-fitting lid keeps out dirt and debris for protected, clean storage.
- 5 Durable:** Molded from structural foam HDPE for resistance to impact, moisture, and chemicals. Solid oak base rails provide better grip for forklift handling.
- 6 Smooth Handling:** Compatible with forklifts and pallet jacks; recessed latches secure ring to base for safe transport.

PRODUCT HIGHLIGHTS:

- Stackable and Nestable:** Saves storage space with a 1.6:1 return ratio.
- Ergonomic:** Molded for easy handling and efficient flow control.
- Weather-Ready:** Performs in harsh conditions from -20° to 120°F.
- Customizable:** Options for labeling and identification available.
- Sustainable:** 100% recyclable.

INTREPID CONTAINERS

SAFE, SECURE LIQUID AND DRY GOODS HANDLING

Standard Colours

Intrepid™ Bulk Containers – Leak-Resistant, Collapsible & Built for Distribution

Engineered to outperform corrugated combo bins, Intrepid™ bulk containers deliver long-lasting durability, ergonomic access, and cost-efficient collapsibility for demanding material handling applications.

FEATURES:

- 1 **Leak-Proof with Liners:** Heavy-duty injection-molded design with a 2,500 lb capacity protects liquids, powders, and granulates.
- 2 **Space-Saving:** Collapsible, non-sequential folding panels offer a 3.3:1 return ratio—up to 240 units in a 53' trailer.
- 3 **Stackability:** Stable stacking with or without an optional lid; integrated base prevents shifting during transport.
- 4 **Ergonomic:** Optional drop-door improves visibility and liner installation while reducing strain.
- 5 **FDA-Approved:** Compliant construction ensures hygienic storage for food and sensitive goods.
- 6 **Label-Ready:** Textured placard areas on all sides plus an optional access door support quick ID and tracking.

PRODUCT HIGHLIGHTS:

- **Hygienic:** Smooth surfaces prevent contamination and eliminate debris common with corrugated options.
- **Heavy-Duty:** Withstands harsh conditions across liquid, powder, and bulk ingredient applications.
- **Efficiency:** Reusable design reduces packaging waste and freight costs.
- **Ergonomic:** Provides safe handling for work-in-process, interplant shipments, and temporary storage.
- **Versatile:** Available with top or bottom discharge to meet varied operational needs.
- **Sustainable:** Easy to clean, repair, and recycle for long-term system value.

CALIBER CONTAINERS

SAFE, SECURE LIQUID AND DRY GOODS HANDLING

Standard Colours

Caliber IBCs – Engineered for Performance, Hygiene & Efficiency

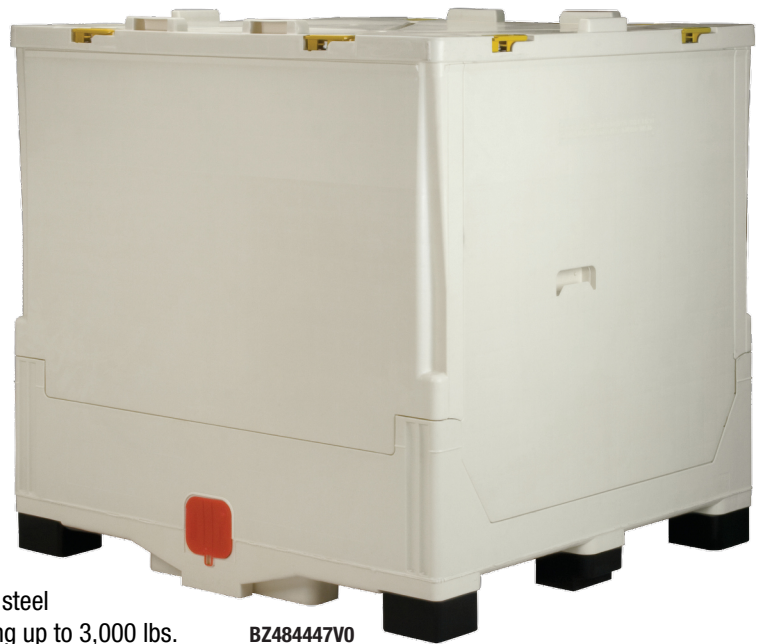

Designed for rugged industrial use, Caliber Intermediate Bulk Containers (IBCs) deliver durable, stackable solutions that meet strict sanitary and operational standards. Ideal for safe, secure liquid handling.

FEATURES:

- 1 **FDA-Compliant Construction:** Injection-molded HDPE with smooth surfaces for hygienic handling.
- 2 **Tamper-Evident Lid:** Eight locking points secure lid to prevent contamination.
- 3 **Stackable Strength:** Safely stacks up to 5 high; embedded steel rods reinforce side walls for added load support, each holding up to 3,000 lbs.
- 4 **Discharge Flexibility:** Offers top or bottom discharge.
- 5 **Smart Tracking:** Dual molded-in RFID tags for inventory control and process monitoring.
- 6 **Space-Saving Design:** Collapsible format with a 2.5:1 return ratio optimizes shipping efficiency.
- 7 **Forklift-Friendly:** Four-way entry for easy movement in any direction.

PRODUCT HIGHLIGHTS:

- **Hygienic:** FDA-grade surfaces maintain product purity in sensitive environments.
- **Heavy-Duty:** Built to withstand pressure filling, stacking, and repeated handling.
- **Secure:** Tamper-resistant lid and structural reinforcements protect contents in transit.
- **Space-Efficient:** Stackable and collapsible design saves warehouse and return freight space.
- **Customizable:** Label placards, RFID, and colour options tailor each unit to its application.

FORKLIFT BINS

STACKABLE STRENGTH FOR BULK HANDLING

Standard Colours

Forklift Bins – Stackable Strength for Efficient Bulk Handling

Designed for rugged industrial use, Forklift Bins combine durability, stackability, and seamless maneuverability to optimize your material handling and storage. Built tough with thoughtful features, these bins are ideal for shipping, warehousing, and bulk transport operations.

FEATURES:

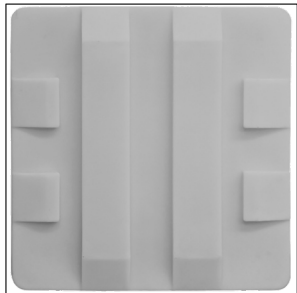

- 1 Four-Sided Forklift Access:** Lift and move bins effortlessly from any angle using standard forklift equipment.
- 2 Nest & Stack Design:**
 - Nest when empty to reduce storage footprint.
 - Stack securely when full to maximize space.
- 3 Corner Nesting Stops:** Barrel-type nesting stops in each corner ensure stable stacking and safe nesting.
- 4 Heavy-Duty Construction:** Both bin and lid are robust—built to endure heavy use and allow vertical stacking.
- 5 Optional Lid Available:** Protect contents from dust and debris; sold separately.

Note: Model 4900 is not compatible with standard pallet trucks.

PRODUCT HIGHLIGHTS:

- **Durable:** Engineered for high-impact handling in industrial environments.
- **Effortless:** Four-way forklift entry streamlines mobility and access.
- **Space-Saving:** Nestable and stackable to cut shipping costs and storage space.
- **Customizable:** Optional lids offer content protection and added versatility.

STEEL STORAGE CABINETS

HEAVY-DUTY, HIGH-DENSITY STORAGE

Standard Colours

19 Series Steel Bin Cabinets – Compact and Customizable

Engineered for safe small-part storage and easy identification, the 19 Series Steel Bin Cabinets combine rugged welded steel construction with modular compatibility across storage systems. Now manufactured out of galvennealed steel for superior corrosion protection.

FEATURES:

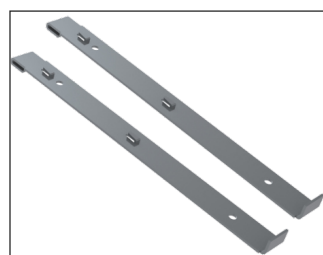

- 1 **Durable Powder-Coated Finish:** Chip-resistant surface protects against scratches and corrosion.
- 2 **Heavy-Duty Steel Frame:** Welded 24-gauge cabinet body delivers reliable long-term strength.
- 3 **Stackable Design:** Built-in nesting feet ensure safe, stable vertical stacking.
- 4 **Quick Identification:** Label holder and clear drawer window simplify content visibility.
- 5 **High-Quality Drawers:** Industrial-grade plastic drawers designed for long-term use.
- 6 **Flexible Organization:** Dovetail dividers (included) allow up to 8 compartments per drawer.

PRODUCT HIGHLIGHTS:

- **Functional:** Ideal for organizing small parts with a compact footprint: 17"W × 11"D × 11"H; drawers: 10-9/16" deep.
- **Safe:** Rounded edges and rear drawer stop tab help prevent spills and damage.
- **Expandable:** Integrates with Rail Racks, ProCart™, Storage-Go-Round, and Louvered Panels using optional suspension straps.
- **Wall-Mountable:** Four keyhole slots on the back allow for easy mounting to vertical surfaces.

Storage-Go-Round – High Capacity, Small Footprint, Total Access

Optimize your space and streamline workflow with the Storage-Go-Round—a rotating bin storage unit that packs up to 1,000 lbs. of organized parts into just one square yard.

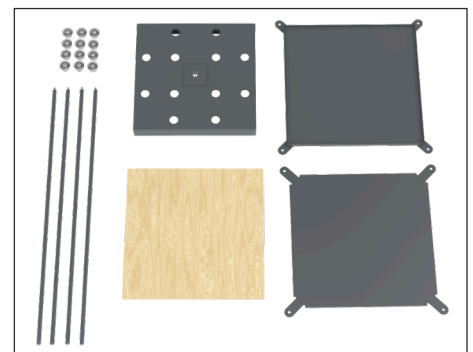

FEATURES:

- High-Capacity Design:** Securely holds (20) 19-Series cabinets, sold separately.
- Compact Workspace Footprint:** Swing diameter measures just 43-5/8" for space-saving.
- Smooth Rotation Base:** Ball-transfer base enables easy part access.
- Durable Finish:** Tough powder-coated surface resists chips, scratches, and corrosion.
- Customizable Appearance:** Mix and match drawer colours and sizes to elevate organization and aesthetics.

PRODUCT HIGHLIGHTS:

- Capacity:** Supports up to 1,000 lbs. of parts across 20 mounted steel cabinets.
- Efficient:** Ideal for pick stations and assembly areas where speed and organization matter.
- Dust-Free:** Cabinet and drawer design minimizes dust accumulation for cleaner storage.

HEAVY DUTY STEEL CABINETS

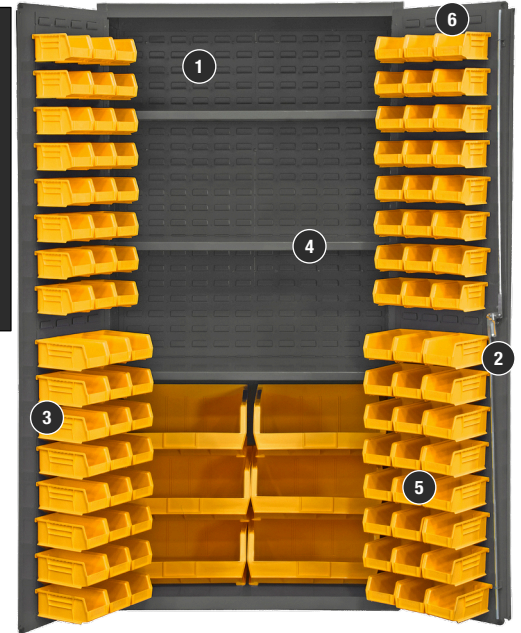

CUSTOMIZABLE, ALL-WELDED, SECURE STORAGE

Standard Colours

CUSTOM STORAGE SOLUTIONS

Customize steel cabinets with Hanging and Stacking Bins and InSight® Bins (sold separately), or shelf bins with the optional shelves.

Heavy-Duty All-Welded Bin Storage Cabinets

Designed for demanding environments, these cabinets combine rugged steel construction with flexible storage options. Ideal for organizing tools, parts, and supplies in industrial, commercial, or maintenance settings.

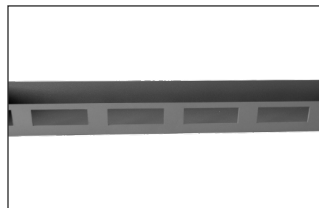

FEATURES:

- 1 **Construction:** All-welded, 14-gauge steel for maximum strength and durability.
- 2 **Security:** 3-point locking system with keyed handle and lock rods; 4 keys included.
- 3 **Access:** Double doors open at 180° for full visibility and easy product retrieval.
- 4 **Adjustability:** Shelves rest on louvered panels and adjust on 4" centers—no tools required.
- 5 **Compatibility:** Optional Hanging and Stacking Bins available (sold separately).
- 6 **Reinforcement:** Fully welded louvered panels strengthen doors and support bins.
- 7 **Assembly:** Cabinets ship fully assembled for immediate use.
- 8 **Finish:** Durable, textured grey powder coat resists wear and corrosion.

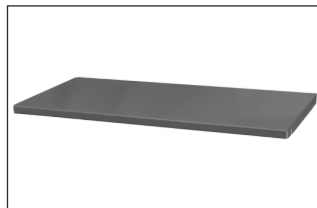

PRODUCT HIGHLIGHTS

- **Durability:** Heavy-duty steel construction built for industrial use.
- **Protection:** Secure locking system safeguards contents.
- **Convenience:** Full-access doors simplify loading and retrieval.
- **Flexibility:** Tool-free shelf and bin installation for fast setup.
- **Customization:** Pair with optional bins and shelves for tailored storage.
- **Sizing:** Available in 18" and 24" depths to suit your space.

LOUVERED HANGING SYSTEMS

CUSTOMIZABLE VERTICAL STORAGE FOR HANGING BINS

Standard Colours
GY

Louvered Panels – Built for Space-Saving Organization

Transform your workspace with durable Louvered Panels—designed to support bin systems with style and strength. Perfect for wall-mounted applications or full rack installations, these panels create a streamlined, vertical storage solution that keeps supplies accessible and off the floor.

FEATURES:

- 1 Secure Bin Support:** Compatible with Hanging and Stacking Bins and InSight® Bins (sold separately), ensuring stable and efficient storage.
- 2 Heavy-Duty Construction:** Crafted from 16-gauge cold-rolled steel for lasting durability in any environment.
- 3 Powder-Coated Finish:** Smooth and resilient surface resists wear while maintaining a clean, professional appearance.
- 4 Pre-Mounted Convenience:** Models 30661, 30638, and 30676 feature full louvered panels mounted to heavy-duty frames.

PRODUCT HIGHLIGHTS:

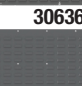

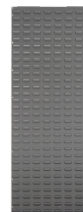

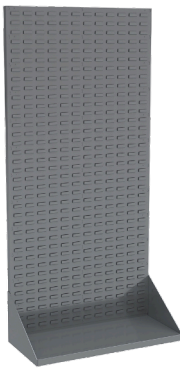

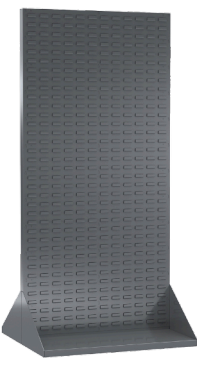

- **Efficient:** Keep items out of the way and off work surfaces—ideal for tight spaces and high-functioning workstations.
- **Floor Racks:** Freestanding racks improve productivity by placing supplies right where you need them.
- **Single-Sided Racks:** Great for wall placement to conserve valuable floor space.
- **Double-Sided Racks:** Provide double the storage in one compact footprint—convenient access from both sides.
- **Mobile Options:** Add mobility kits to make your rack systems easy to relocate without unloading bins.

HOW TO CHOOSE Louvers vs. Rails

Louvers: Steel panels with rows of punched louvers. More storage capacity, greater selection of styles. Panels can be attached to the wall, freeing floor space. Rivet racks come with the panels already riveted to the frame.

Rails: Constructed of individual steel rails that span between uprights. Weigh less than louvered panels, more economical, small footprint, easy to remove bins from rails.

Steel Rail Systems – Support for Efficient Bin Organization

Maximize vertical space with Steel Rail Systems—engineered to hold bin-based storage solutions securely while offering fast, accessible part retrieval. Ideal for workshops, warehouses, and supply rooms.

FEATURES:

- 1 Heavy-Duty Build:** Crafted from 14-gauge steel for reliable bin support and long-term durability.
- 2 Powder-Coated Finish:** Resists wear while maintaining a clean, professional look.
- 3 Bin Compatibility:** Supports Hanging and Stacking Bins, 19-Series Cabinets, and InSight® Ultra-Clear Bins (sold separately).

PRODUCT HIGHLIGHTS:

- **Efficient:** Organize tools and parts for quick retrieval.
- **Single-Sided:** Space-saving units ideal for wall placement.
- **Double-Sided:** Freestanding units allow dual access and flexible placement.
- **Mobile Kit:** Optional accessories enable movement of double-sided racks.
- **Wall Mount:** Rail systems easily mount to walls—perfect for workstations and inventory areas.

HOW TO CHOOSE Louvers vs. Rails

Louvers: Steel panels with rows of punched louvers. More storage capacity, greater selection of styles. Panels can be attached to the wall, freeing floor space. Rivet racks come with the panels already riveted to the frame.

Rails: Constructed of individual steel rails that span between uprights. Weigh less than louvered panels, more economical, small footprint, easy to remove bins from rails.

Pick Racks – Built Strong for Fast, Efficient Part Retrieval

Boost organization and productivity with Pick Racks—engineered to keep supplies front and center. Whether you're outfitting a workbench or a storage station, these racks streamline picking processes and stand up to demanding environments.

FEATURES:

- 16-Gauge Steel Construction:** Provides durable, long-lasting support for high-traffic use.
- Angled Shelves:** Designed to keep bins tilted forward so contents stay visible and accessible.
- Bin Compatibility:** Works seamlessly with Shelf Bins, Indicator® Bins, Drawer Bins, and System Bins™.
- Powder-Coated Finish:** Durable coating resists wear and adds a clean, professional look.
- Mobile Ready:** Optional mobile kits are available (sold separately).

PRODUCT HIGHLIGHTS:

- Efficient:** Keeps parts organized and accessible—perfect for fast-paced workstations.
- Heavy-Duty:** Supports up to 1,800 lbs. with Double-Sided 18" racks; Bench Rack holds 100 lbs. per shelf.
- Versatile:** Choose from Single-Sided, Double-Sided, or Bench Rack configurations, available in both 12" and 18" shelf depths.

WIRE SHELVING

CUSTOMIZABLE SHELVING: FOR ALL YOU STORAGE NEEDS

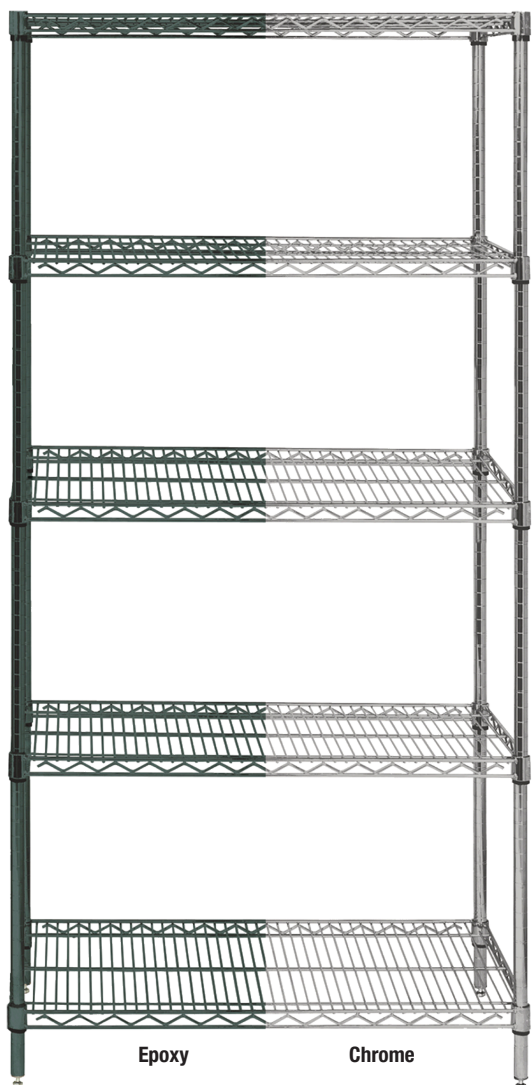

Standard Colours

Promptii wire shelving is a popular storage system to consumers and industrial users alike. With storage capacities of 600-1,000 lbs per shelf, wire shelving will help organize any area.

The open wire truss-reinforced shelves permit light to penetrate, allow free air circulation and give greater visibility of merchandise. Moisture and dust accumulation are reduced, and maximum effectiveness of sprinkler systems is ensured. Assembly is simple and quick.

ASSEMBLING WIRE SHELVING IS AS EASY AS 1-2-3

Epoxy

Chrome

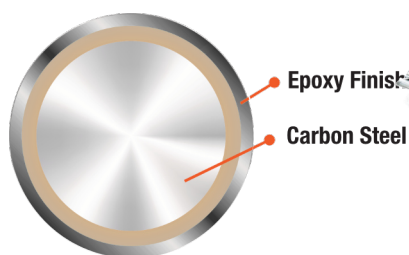

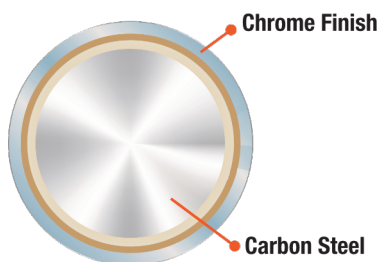

CUSTOM STORAGE SOLUTIONS

Customize your wire shelving with Shelf Bins, Indicator® Bins, Stacking Bins, Drawer Bins, or System Bins.

Which finish is best for you?

Chrome: Very durable and allows product to be used in any dry storage application.

Epoxy: An ideal solution for high humidity, wet, or walk-in-cooler applications.

WIRE SHELVING STARTER KITS

READY TO ASSEMBLE WIRE SHELVING

Standard Colours

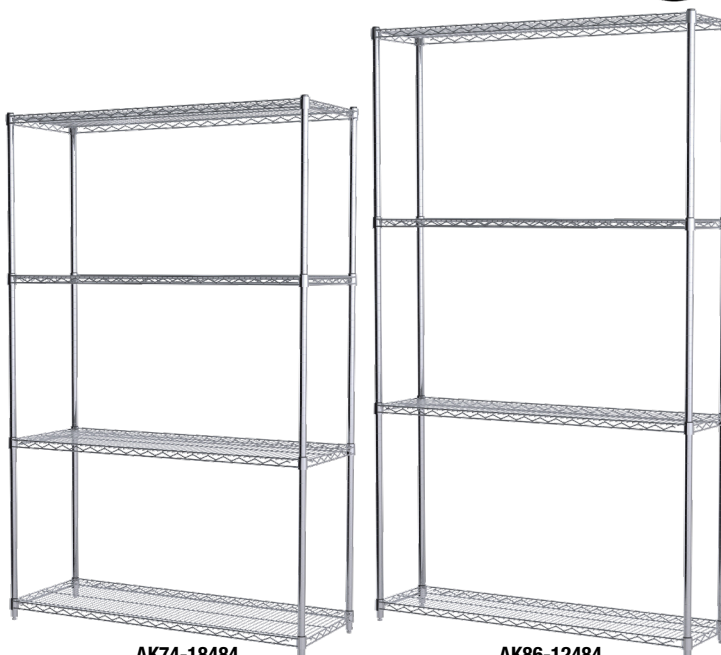

Chrome & Epoxy Wire Shelving – Starter Kits

Optimize storage and meet compliance by elevating your supplies off the floor with durable wire shelving that assembles in minutes; no tools required.

PRODUCT HIGHLIGHTS:

- **Regulatory Ready:** Keep inventory off the ground to meet facility compliance standards.
- **Clean Visibility:** Open-wire design minimizes dust buildup and enhances item visibility.
- **Quick Setup:** Tool-free assembly makes installation simple and efficient.
- **Strong Load Capacity:** Shelves hold up to 800 lbs. ($\leq 48"$) or 600 lbs. ($> 48"$).
 - **Starter Unit Includes:** 4 wire shelves, 4 posts with levelling feet, quick-adjust sleeves.
- **Label-Ready:** Easily integrate shelf labelling systems.

WIRE SHELVING ACCESSORIES

CUSTOMIZE WITH ESSENTIAL ACCESSORIES

Standard Colours

Swivel Casters

Create mobile shelving units and carts with these swivel caster sets.

5" casters, 2 with brakes, 2 without brakes.

Push Handles

Create mobile shelving units and carts with handles.

"S" Hooks

Allow for continuous runs or 90° angles.

Use two hooks per shelf.

Post Clamps

Secure two shelf kits together by connecting their posts with a joining bar.

Post clamps leave a 1/2" gap between posts.

Leveling Feet

Levels shelving units on uneven surfaces.

Steel Foot Plate

Provides extra stability to shelving units.

Allows shelving to be secured to the floor.

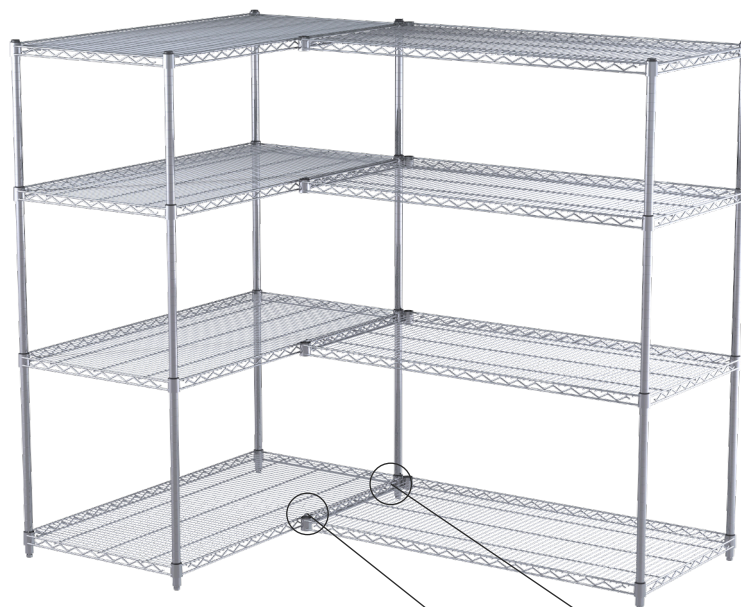

Donut Bumper

Slides onto bottom of upright posts.

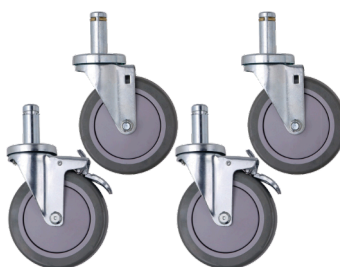

Add them to mobile units to prevent damage to walls.

Quick-Adjust Clips

For assembling shelves to posts.

VERSATILE PLATFORM DECK TRUCKS

HEAVY-DUTY PLATFORM TRUCK

Standard Colours

BK

Versa Deck – Strong, Stable & Built to Haul

Versa Deck platform carts are engineered for high-capacity transport and rugged utility—perfect for warehouses, distribution centers, and manufacturing floors.

FEATURES:

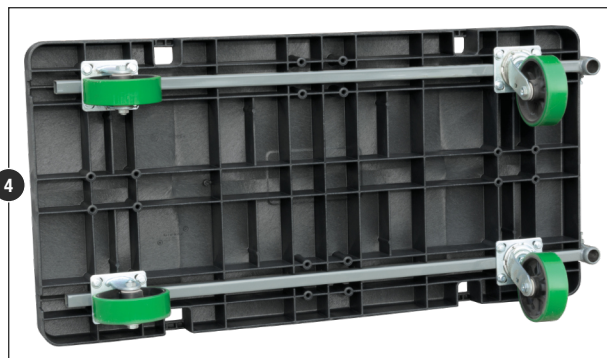

- 1 Non-Skid Deck:** Molded structural foam deck resists rust, rot, chipping, and cleans easily.
- 2 Jam Bolts:** Secure handles in place on every model for added stability.
- 3 Tie-Down Slots:** Four built-in slots keep cargo secure during movement.
- 4 Steel Reinforcements:** Add strength and increase weight capacity.
- 5 Removable Handles:** Powder-coated for durability and designed for space-saving storage and shipment.

R90182A1411

PRODUCT HIGHLIGHTS:

- Durable:** HDPE structural foam deck paired with steel reinforcement holds up under heavy use.
- Capacity:** Rated to carry loads of up to 2,000 lbs.

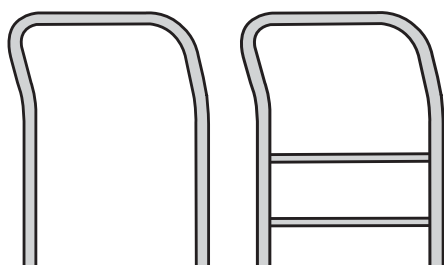

Under-deck steel reinforcements and bolt-on casters provide durability and a weight capacity of up to 2,000 lbs.

INDUSTRIAL EQUIPMENT

HEAVY-DUTY, RELIABLE CONSTRUCTION

Standard Colours

Dollies – Mobile Support for Container Handling

Designed for reliable transport of hand-held containers, these dollies offer rugged construction, smooth maneuverability, and size-specific compatibility.

FEATURES:

- 1 **Plastic Dolly:** Features a one-piece deck with a 1" lip to secure loads. Made from high-impact polyethylene that resists rot, mildew, and splintering.
- 2 **Steel Dolly:** All-welded 13-gauge steel or 1-1/2" x 1-1/2" x 1/8" angle steel for maximum strength. Powder-coated surface resists corrosion and wear.
- 3 **Casters:** Equipped with four 3" swivel casters for smooth movement.

PRODUCT HIGHLIGHTS:

- **Functional:** Support and move loaded containers safely and efficiently.
- **Durable:** Plastic and steel options stand up to heavy use and environments.
- **Maintainable:** Easy-to-clean surfaces keep dollies working longer.

PROCART UTILITY CART

VERSATILE CONVERTIBLE UTILITY CART

Standard Colours

GY

ProCart Utility Carts – Versatile, Convertible & Ready to Roll

ProCart Utility Carts are built to flex with your workflow—combining secure transport, ergonomic design, and durable construction to meet the needs of busy workspaces. Whether you're managing tools, parts, or supplies, these carts adapt quickly for storage, mobility, or assembly tasks.

FEATURES:

- 1 Convertible:** Hinged side gates flip up or down to shift from box-top to flat-top cart.
- 2 Built-In Storage:** Molded compartments keep essentials within reach (cup holder included on 30936 large cart).
- 3 Comfortable Grip:** Full-width handle offers complete control during transport.
- 4 Smooth Maneuverability:** Toe-touch locking rear swivel wheels and 5" polyurethane-on-polyolefin wheels (1.75" x 3" bolt pattern).
- 5 Heavy-Duty:** I-beam post allows easier loading of oversized items onto the lower shelf.
- 6 Optional Add-On:** Rail systems (sold separately) accommodate Hanging and Stacking Bins or 19-Series Steel Cabinets.

PRODUCT HIGHLIGHTS:

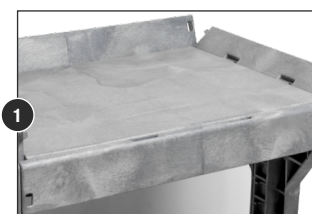

- Versatile:** Converts quickly for open or contained transport; ideal for assembly lines, warehouses, and more.
- Durable:** High-density structural foam resists dents, rust, and wear—no painting required.
- Capacity:** Carries up to 400 lbs. total; 200 lbs. per shelf.
- Assembly:** Light setup required for fast deployment.
- Variety:** Available in 2 size options to suit different workstations.

ProCart Rail Kits		Other Specifications

UTILITY BOX CARTS

DURABLE, VERSATILE, EFFORTLESS MOBILITY

Heavy-Duty Utility Carts, Seamless Strength, Smooth Mobility

Built for reliability and long-term use, these rugged Utility Carts are the ideal solution for transporting heavy materials in industrial environments. With thick, rotomoulded bodies and reinforced bases, they offer unparalleled durability, easy handling, and safe, ergonomic design.

FEATURES:

- 1 Durable Wall Construction:** Seamless rotomoulded body withstands heavy impacts without cracking, fading, or corroding.
- 2 Reinforced Base:** Includes a treated plywood base for extra structural integrity. Optional plastic base for food and wet applications available.
- 3 Easy Maneuvering:** Mini and Standard-Duty carts are equipped with 3" thread guard casters, and Heavy-Duty carts are equipped with 4" casters for smooth rolling and effortless handling.
- 4 Ergonomic Design:** Built for safe loading and unloading to reduce physical strain.
- 5 Caster Pattern:** All swivel, corner caster, and diamond caster options available on select models.

PRODUCT HIGHLIGHTS:

- Multiple Options:** Carts available in mini, standard-duty, and heavy-duty styles to suit your needs.
- Smart Accessories:**
 - *Spring platforms* (optional) elevate materials for easier access and reduce bending.
 - *Lids* (optional) available for **models 125 & 145 style** to protect contents and minimize dust.
- Colour Flexibility:** Stocked in grey; other colours available upon request.
- Easy Access:** Reduce stress and strain on the lower back with easy access cut-out models.

NEXT GENERATION UTILITY CARTS

BUILT TO ROLL, BUILT TO LAST

Standard Colours

Next Generation Utility Carts – Built to Roll, Built to Last

Experience the next generation of utility carts, engineered for superior strength, smooth mobility, and long-lasting performance. With a rugged design that combines durability, maneuverability, and ergonomic handling, this cart is ready to take on the toughest tasks in any environment.

FEATURES:

- 1 **Double-Wall Lip:** Reinforced box-style lip adds exceptional impact resistance and structural strength.
- 2 **Smooth Mobility:** Equipped with two heavy-duty front casters and two large rear poly-core wheels for effortless rollability and control.
- 3 **Seamless Durability:** One-piece molded body resists cracking, chipping, fading, rusting, denting, splintering, and corrosion.
- 4 **Reinforced Undercarriage:** Steel frame provides added support and stability under heavy loads.
- 5 **Ergonomic Handling:** Molded-in handles offer a secure, comfortable grip for easy maneuvering.

PRODUCT HIGHLIGHTS:

- **Durable:** Built for demanding environments - ideal for industrial, commercial, and institutional use.
- **Ergonomic:** Designed for comfort and control, even when fully loaded.

BULK HANDLING LINEN CARTS

ERGONOMIC MEETS HEAVY-DUTY

Standard Colours

BL

Bulk Handling Linen Cart – Ergonomic Meets Heavy-Duty

Designed to handle larger loads without compromising maneuverability or user comfort, the Bulk Handling Linen Cart offers smart design and serious durability for demanding environments. Perfect for healthcare, hospitality, and industrial laundry operations, this cart combines reinforced structure with smooth mobility.

FEATURES:

- 1 **Heavy-Duty:** Equipped with a rugged molded plastic base and heavy ribbing for maximum strength and impact resistance.
- 2 **Smooth Transport:** Four 6" non-marking neoprene casters (2 rigid, 2 swivel) arranged in a corner pattern provide stable and agile movement.
- 3 **Ergonomic Access:** Sidewall opening allows for easy loading and unloading, minimizing physical strain.
- 4 **High Capacity:** 1700B and 1800B are designed to handle up to 1,000 lbs. of linen or bulk material.

PRODUCT HIGHLIGHTS:

- **Ergonomic:** Built with easy-access features for comfortable operation and reduced bending.
- **Durable:** Reinforced body resists damage from heavy use and repeated handling.
- **Mobile:** Neoprene casters glide smoothly without marking floors, perfect for both carpet and hard surfaces.
- **High-Capacity:** Suitable for heavy loads without compromising stability or control.

Convertible Linen Truck

The 1750B offers dual functionality with drop-down shelves that form a secure door. Built for durability and smooth transport, it features heavy-duty ribbing, non-marking neoprene casters, and snag-free design.

CUSTOMIZABLE OPTIONS:

- Open or closed top (closed top shown).
- Choice of cart colour.
- Choice of shelf colour.

JUMBO UTILITY CARTS

HIGH CAPACITY, SMOOTH HANDLING BULK TRANSPORT

Standard Colours

Jumbo Utility Cart – High-Capacity, Smooth-Handling Bulk Transport

Built for big jobs, the Jumbo Utility Cart is our largest model, designed to carry heavy loads without sacrificing maneuverability. Perfect for industrial, textile, or facility-wide handling, this cart blends serious capacity with ergonomic ease.

FEATURES:

- 1 **Massive Capacity:** Supports up to 1,500 lbs. for heavy-duty use.
- 2 **Caster Configuration:** Comes with 2 rigid and 2 swivel threadguard casters mounted on a recessed plywood undercarriage for balance and smooth motion.
- 3 **Surprisingly Agile:** Despite its size, rolls easily for efficient transport.
- 4 **Cut-Out Options:** Choose from 1-tier cut-out, 2-tier cut-out, 1-side cut-out, or 2-side cut-outs for customized accessibility. (1-tier / 1-side option shown).

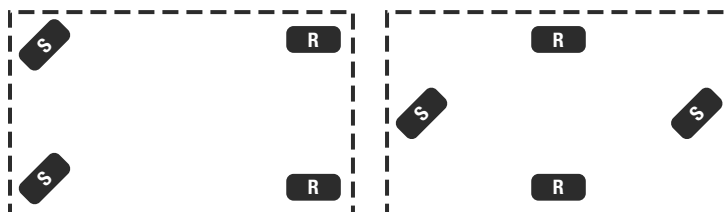

PRODUCT HIGHLIGHTS:

- **Heavy-Duty:** Built to handle bulky, weighty loads with structural stability.
- **Functional:** Customize access based on workflow with multiple cut-out configurations.
- **Durable:** Reinforced undercarriage ensures long-term use in demanding environments.
- **Easy to Handle:** Smooth casters and thoughtful design make maneuvering easy; even when fully loaded.

TILT TRUCKS

BULK HANDLING AND WASTE TRANSPORT SYSTEMS

Standard Colours

GY

Tilt Trucks – Heavy-Duty Hauling with Durable Design

Engineered for industrial toughness and efficient transport, Tilt Trucks are built to take on the heaviest loads with ease. Designed with reinforced features and ergonomic handling, they provide superior durability and maneuverability across both heavy-duty and regular-duty models.

FEATURES:

Regular-Duty Tilt Trucks – Economical Strength:

- 1 **FDA-Approved Polyethylene:** Lightweight yet durable—ideal for cost-conscious applications.
- 2 **Nestable Design:** Minimizes shipping costs and storage footprint.
- 3 **Optional Accessories:** Hinged lids available for models 420LT & 441LT.

Heavy-Duty Tilt Trucks – Rugged & Reliable:

- 1 **Double-Wall Lip:** Increases impact resistance and structural longevity.
- 2 **Molded Collar:** “C” Series reinforced boxed design eliminates the need for a costly steel frame.
- 3 **Ergonomic Handling:** Molded-in handles deliver a secure, comfortable grip.
- 4 **Optional Accessories:** Hinged lids available for models 420C & 441C; replacement casters upon request.

PRODUCT HIGHLIGHTS:

- **Seamless Body:** Won't crack, chip, fade, rust, dent, splinter, or corrode; no painting required.
- **Heavy-Duty Wheel Base:** Combines durability and maneuverability for challenging environments.

Note: Some tilt trucks are oversized. Please measure all doorways and access points to ensure smooth transport.

TILT TRUCKS

BULK HANDLING AND WASTE TRANSPORT SYSTEMS

Standard Colours

Heavy-Duty Tilt Trucks

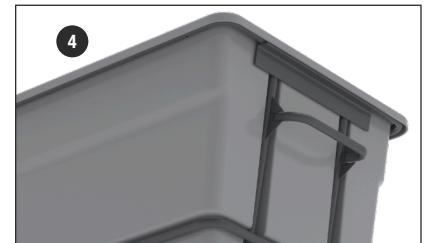

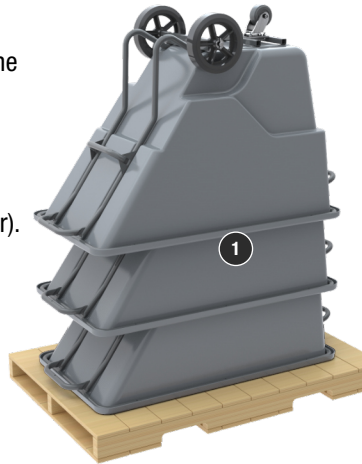

Built for rugged performance and effortless transport, these tilt trucks are designed to handle bulky, heavyweight loads with ease. Whether manually maneuvered or forklift-assisted, they offer durability, efficiency, and convenience in demanding environments.

FEATURES:

- Space-Saving Nesting:** Fully assembled units nest for compact shipping and storage.
- Smooth Mobility:** Wheel base and heavy-duty casters ensure easy maneuverability, even under heavy loads.
- Forklift Compatibility:** Optional forklift channels allow fully loaded trucks to be moved by lift trucks, saving time and labor.
- Reinforced Frame:** Powder-coated tubular steel frame extends under top rim for added strength.
- Optimized for Dumpers:** Fully welded, reinforced frame and lift handles optimized for with tilt cart dumpers.

PRODUCT HIGHLIGHTS:

- Variety:** Available in standard or forkliftable models (forkliftable models include an “F” in the model number).
- Seamless Body:** One-piece molded tub resists rust, dents, and chips; easy to clean.
- Durable:** Heavy-duty construction supports automatic dumper applications.
- Industrial Grade:** Ideal for industrial, commercial, and waste-handling operations.

Desk & Curbside Recycling Containers – Ergonomic, Durable, and Space-Saving

Designed for everyday recycling needs, these containers are ideal for use in offices, schools, and public spaces. Whether placed under desks, counters, or used curbside, they offer a clean, efficient solution for collecting paper, bottles, and cans.

PRODUCT HIGHLIGHTS:

- **Multi-Use:** Under-table and curbside containers are suitable for cans, bottles, and paper recycling.
- **Ergonomic:** Designed with comfortable handles for easy lifting and transport.
- **Durable:** Made from tough materials that won't rust, corrode, or splinter.
- **Compact:** Nestable when empty to save valuable storage space.
- **Stackable:** Model 075611 features cross-stacking capability for added versatility.

SOS STORAGE BINS

RUGGED, WEATHER RESISTANT, RELIABLE

Standard Colours

SOS™ Storage Bin – Rugged, Secure, All-Purpose Containers

From rural roads to pool decks to truck beds, the SOS™ Storage Bin delivers reliable protection, high-impact durability, and lockable security for tools, chemicals, or seasonal materials.

FEATURES:

- 1 **Lockable Security:** Molded-in hasp allows padlocking (not included) to safeguard contents in any setting.
- 2 **Weather-Resistant Construction:** Rotomoulded with a double-walled lid for durability and protection from harsh elements.
- 3 **Versatile Storage:** Ideal for storing salt, sand, garbage, tools, safety gear, and poolside chemicals.
- 4 **Maneuverable:** Fork channels come in all sizes, except the SA500 and SOS5.5.
- 5 **Nesting:** Nestable design when empty to save on storage space and shipping.

PRODUCT HIGHLIGHTS:

- **Functional:** Suitable for rural, residential, industrial, and vehicle-based applications.
- **Durable:** Tough rotomolded build with UV inhibitors resists impact and outdoor exposure over time.
- **Long-Lasting:** Designed to deliver years of use without compromising structural integrity.
- **Variety:** Stocked in Yellow and Grey; other colours available upon request.

MATERIAL HANDLING STORAGE SOLUTIONS

THE PROMPLII ADVANTAGE

At Promplii, our extensive line of material handling solutions are designed to boost efficiency, reduce costs, and streamline operations across virtually every industry. From storage and organization to transport and protection, our products help you:

- Speed up assembly processes
- Maintain accurate inventory
- Maximize storage space
- Protect valuable parts and components

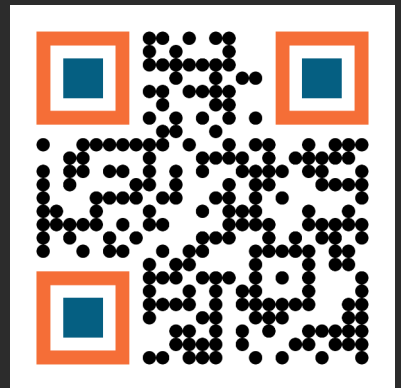

When you choose Promplii, you're choosing quality, reliability, and a partner committed to your success.

EXCEPTIONAL CUSTOMER SERVICE

Our knowledgeable customer service team is here to support you every step of the way. Whether you need product guidance or help finding the fastest way to get what you need, we're just a call or click away.

READY TO SHIP WHEN YOU ARE

With fully stocked inventories in Calgary, Alberta and Mississauga, Ontario, and multiple manufacturing locations, we're equipped to deliver what you need—fast. Many of our products are available off-the-shelf and ready to ship!
